BASIC DESCRIPTION

Physical Features

25X1

5. Chiao-ho Airfield consists of a runway, a parallel taxiway, two additional taxiways [REDACTED] and two probable construction camps or support areas.

25X1

25X1

6. The runway was in an early stage of construction [REDACTED] It consisted of a [REDACTED] northeast/southwest runway which was probably unpaved. Final runway length could not be determined due to construction activity. An unpaved taxiway parallels the runway.

25X1

25X1

25X1

8. Two probable construction camps or support areas are located in two valleys north of the runway. One area, designated area A, consists of approximately 35 quarters/support and storage buildings. The other, designated area B, consists of approximately 125 quarters/support and storage buildings.

TOP SECRET
